

We, members of Co-Impact's Business Council, Arab and Jewish leaders of the business sector, are working daily to promote equality and partnership between Arabs and Jews in the field of employment and in other areas. We look today in pain and in anxiety at the current escalation and deterioration of Jewish-Arab relations.

Out of sincere and deep concern for the daily life and future of our children - we ask you to think about what brings us together and not about what tears us apart, to strive for shared society and not anarchy, because only through mutual respect and mutual responsibility can we restore quiet and personal security, and grow as a healthy, positive and diverse society.

Together we will emerge from Eid al-Fitr and Shavuot strengthened and determined to restore order, restore relations, and find courageous and constructive ways to improve shared society in our country.

**Wishing you happy and quiet holidays,
Members of Co-Impact's Business Council**
